PART 2 – REASONS FOR STANDING

Contents are not to refer by name or inference to any other candidate, nor contravene Union policy governing publication.

Societies, for one reason or another, during this academic year, to me, appear to have been largely neglected, and I believe that in order for this to change, societies need a voice strong enough to be heard, and I feel that I can offer this to Societies as a whole. Having chaired a new society during this year, I feel that societies need the same level of support, if not more support that has been given to them during this year by the Societies Exec, and I feel that myself, if elected, alongside the Societies Exec, could offer this high level of support that is currently being offered.. I further believe that, societies should be given the same level of emphasis and representation within the Union as the AU, as much like the AU, Societies play a massive role in the lives of us students, if elected, I shall endeavour to ensure that Societies begin to be perceived as important to the degree that they actually are.
